 📄 mohammed-ali-el-adlouni

Education

MSc	Université Lyon II , Machine Learning	Lyon, France
	- Optimization, Ensemble Methods, Manifold Learning, Deep Learning, NLP, Big Data, Interpretability - Completed 10+ end-to-end data science and machine learning projects	Sept 2024 – Aug 2025
Diplôme d'Ingenieur	INSA Lyon , Electrical Engineering & Computer Science	Lyon, France
	Computer Science, Applied Mathematics, Data Science, and Electrical Engineering Probability, statistics, optimization, algorithms, and distributed systems	Sept 2019 – June 2024
MSc Exchange	Carlos III University (Erasmus) , Computer Vision, AI, Robotics	Madrid, Spain
	Computer vision, audio analysis, robotics, quantum computing, and AI applications	Sept 2023 – Jan 2024

Experience

Onepoint (at L'Oreal)	AI Engineer	Paris, France
	- Building MCP servers and AI agents for L'Oreal's Agentic Studio - Production deployments on Google Cloud Platform	Oct 2025 – present 7 months
Telecom Paris (ADASP Group)	ML Engineer	Paris, France
	- Benchmarked state-of-the-art audio encoders with multi-GPU (NVIDIA A100) distributed training - Built data workflows for AudioSet (~2M samples, 650-700 GB) - Achieved 61x model compression with 96.4% performance retention - First-author paper accepted at ICASSP 2026	May 2025 – Sept 2025 5 months
Lawrence Berkeley National Laboratory (LBNL)	Data Scientist	Berkeley, CA, USA
	- Processed 272M-row spatio-temporal dataset across U.S. urban census tracts - Built ML pipelines with LightGBM, CatBoost, XGBoost, neural networks - Awarded \$10,000 Excellence Fellowship - First-author paper at IEEE Big Data 2024	Mar 2024 – Dec 2024 10 months
EFI Automotive	Computer Vision & Data Engineer	Lyon, France
	- ML models and OpenCV-based template matching for visual navigation - End-to-end data engineering pipeline with 100+ samples - Full MLOps workflows with Git, Docker, and CI/CD	Sept 2022 – Jan 2023 5 months

Awards

LBNL Excellence Fellowship: Awarded \$10,800 research fellowship for outstanding quantitative research contributions in the Energy Analysis & Environmental Impacts Division at Lawrence Berkeley National Laboratory.

Skills

Programming: Python, C++, NumPy, Pandas, Scikit-learn, PyTorch, PyTorch Lightning, HuggingFace, GPU Training
MLOps & Deployment: Git, Linux, Docker, FastAPI, Airflow, Spark, MLflow, GitHub Actions, Kubernetes, GCP, AWS
Data Engineering: SQL, NoSQL, BigQuery, PostgreSQL, MongoDB, ETL pipelines, Data Warehousing

Languages

Arabic: Bilingual

French: Bilingual

English: C1

Spanish: B2

German: A2
